Bryan Hanson

Bryan was born in Southampton in 1956. He moved to Marlborough, Wiltshire in 1980 to pursue a career as a painter and sculptor full time.

His inspiration is drawn from the natural world, in particular birds, which have held a life long fascination and provide constant inspiration. Although birds themselves have taken a bit of a back seat in recent times, their feathers and eggs have not, featuring in many of Bryan's still lifes.

In my opinion, there can be fewer more wondrous sights in nature than a beautifully constructed nest, containing a clutch of fresh eggs.
